

RUSHIKESH YEOLE

About me

A conscientious and organized student who loves to solve problems creatively and is passionate about Web Development and Data Science/Machine Learning. I am an avid learner wanting to craft exciting and innovation solution.

Experience

- **Internship at Jio Platforms Limited**

Submersed in the dynamic domain of Data Science and Machine Learning, gained valuable insights and practical skills in handling complex datasets and implementing machine learning algorithms.

- **Project Intern at Innobytes Technologies**

Project Intern at Innobytes Technologies - Leveraged MERN stack for cutting-edge web application development. Gaining proficiency in front-end and back-end. Strengthened problem-solving and communication abilities.

- **Internship at Knowledge Solutions India**

During a summer training and internship on Machine Learning with AI using Python, I successfully completed a project focused on optimizing inventory management and sales forecasting for Walmart.

Certificates

- **Data Science Foundations**

- **Introduction To SQL**

Projects

- **Shrine Connect**

A community-focused project facilitating online pooja transactions and notifications for individuals within the same community.

- **VESIT Council Management**

Created an app using Tkinter and SQL workbench, for college event management, streamlining registration as well as making simplifying room and venue allocation for teachers.

- **Walmart Store Management**

Created an app using machine learning concepts for the management of Walmart store.
